REFERENCES

" Hansraj has very good technical skills. He worked with me in a complex HSS feature development. He has shown great character and problem solving skills during that assignment. He is someone you can trust and rely on. He is very soft spoken and a good listener. I will definitely recommend him for his attitude and technical competence. And would look for a chance to work again with him. All the very best. Cheers!! "

LinkedIn Recommendation - Yashveer Arya, Engineering Project Manager at Aricent

" I have worked with Hansraj, he is an excellent team player and highly productive in his all assignments. He works proactively and his presence gives confidence to the team members. He has collaborated with other teams (HSS and IMSLite) for fixing their module issues by providing necessary logs and detailed analysis of issues, showing his flexibility to take on new challenges. His "never say no attitude" differentiates him from others and that's the reason he commands a great rapport in his team. Keep it up Hansraj :) "

LinkedIn Recommendation - Rahul Tiwari, Engineering Project Manager at Aricent
